

**Educational background:**

1974-1979 Academy of Art (AKI), Enschede, The Netherlands

*My work is strongly related to certain elements of nature; light and space.  
To experience nature in a purified way I work part of the year in the north of Sweden where I  
make my drawings. In the Scandinavian landscape a fascinating contradiction can be found:  
austere from afar, and organic nearby.  
Subsequently these drawings and themes are expanded in paintings in my studio in the  
Netherlands.*
